Research Experiences

The Four Day Workweek: Assessing Individual, Organizational, and Environmental Impacts 2022 - present

Researcher | University of Minnesota & Boston College

- Explores a range of organizational flexibility interventions particularly four day work week to assess their implications on employees' health and well-being
- Conducted interviews with companies that launched four day workweek trials

2022 Status of Women & Girls in Minnesota 2021

CWGPP Fact Sheets in Minnesota Series: Who Cares? Who Earns? 2022

Researcher | Center on Women, Gender, and Public Policy

- Examined gender disparities in unpaid and paid labor in Minnesota
- Analyzed data specific to Minnesota women and girls in economics, safety, health, and leadership
- Disaggregated data using the gender-race-place-equity lens to understand how inequities affect communities differently

Research on Coexistence and Collaboration 2020

Researcher | Korea National Open University

- Established a database of conflict cases in South Korea, which the Office of Government Policy Coordination uses for managing social risks and conflicts
- Explored concepts and theories related to deliberative democracy for inclusive policy-making process

Research on Careers and Performance Analysis of the Participants of Brain Korea 21 Program 2016 - 2017

Researcher | National Research Foundation of Korea

- The BK21 program, funded by the government with a \$2 billion investment, aimed at nurturing exceptional scholars and enhancing graduate education
- Designed survey questionnaires to evaluate the BK21 program by examining participants' academic performance and career paths since 1999

Building Collaborative Governance between the Central and Local Governments 2015

Researcher | Korea Institute of Public Administration

- Evaluated regulation systems of central and local governments to build collaborative governance
